

Huawei 'Seeds for the Future' Program 2022

Are you an undergraduate-level ICT student looking for a unique learning experience? Are you interested in the ICT sector because you see it as an industry that will shape the future? Are you fascinated by emerging technologies? Do you have an idea that will help combat environmental/social problems using technology? Are you free to travel to Bangkok in an all-expenses-paid trip in August?

If the answer to these questions is “yes”, we want to hear from you.

Huawei – Who are we?

Founded in 1987, Huawei is a leading global provider of information and communications technology (ICT) infrastructure and smart devices. We are committed to bringing digital to every person, home and organization for a fully connected, intelligent world. We have approximately 195,000 employees and we operate in over 170 countries and regions, serving more than three billion people around the world.

We are one of the world's most innovative companies and a leading telecoms solutions provider with comprehensive strengths delivering fixed-line, wireless & IP technologies.

We serve three main types of customers globally:

- Telecom operators that provide Internet, broadband, wireless, plus fixed and mobile phone services
- Enterprises, organizations, institutions, governments & public utilities, as well as industries: cloud service seekers, finance, energy, transportation & manufacturing
- Consumers, who buy our smartphones, smart watches, laptop computers and other devices

Everything we develop and deliver to our customers is secure, trustworthy, and this has been consistent over a track record of 30 years.

What are we offering?

We are offering **7 undergraduate students** – from any ICT-related academic background, the opportunity to join a unique learning experience around technology, innovation and cross-cultural exchange from

Aug 19 – Aug 27 being held in Bangkok, Thailand.

During the program, the participants will:

- Learn about cutting-edge ICT knowledge and discuss hot topics face-to-face with experts.
- Receive entry level and advanced courses on key technologies, including 5G, cloud computing and AI.
- Get insights from cutting-edge technology companies and international organizations, and develop an international perspective.
- Experience different cultures and make friends from around the world.
- Participate in “Tech4Good” group project to increase social entrepreneurship, build problem solving and leadership skills through team work, and deepen sense of social responsibility. Finally, you will have a chance to register for global competition and use your own innovation to compete with all the other

projects created by students around the world. Winners will move to Singapore for our 5-day accelerator camp.

- You will officially join the alumni community where exclusive webinars, round table dialogue, celebration event etc. will be held all year round to strengthen the sense of belonging.

You will also get first-hand insight of the ICT industry in Nepal via

- A visit to Huawei Nepal office
- Classes from industry experts and UNESCO
- An overnight trip to a Huawei-built base station at a scenic location

**The dates for these will be communicated at a later date.*

Who are we looking for?

To be considered for Huawei's 'Seeds for the Future' program in 2022, applicants will need to match the following criteria:

- College undergraduates from any ICT-related discipline with excellent academic records (at least 3.0 GPA in their most recent exam)
- Have strong interest in ICT industry, entrepreneurship and China, and great enthusiasm for learning
- Have good English language ability
- Have willingness to participate in group project and global competition

**Please note that this is a non-salaried program.*

How to apply?

Please visit www.seedsnepal.com and prepare the following application materials:

- Latest marksheet (or recommendation letter for freshment students) from your institution
- A 500 to 600-word motivation letter that reflects your objective to participate, your interest in the ICT sector, and enthusiasm for learning

The Seeds for the Future selection committee composed of distinguished ICT professors will select the 6 finalists.

For more information, call or text 9801251992.

Application Deadline: June 26, 2022
